International standard certification of food safety management system

AEON NEXT acquires ISO 22000 certification

AEON NEXT Co., Ltd. (Head Office: Mihama-ku, Chiba City; President: Bharat Rupani) has obtained ISO 22000 certification, an international standard for food safety management systems.

AEON NEXT's mission is to provide safe and reliable products to customers. Obtaining ISO 22000 certification is an important step toward achieving this mission, and the company will further enhance reliability and transparency by complying with international standards for food safety management.

■ Initiatives to acquire "ISO 22000"

In the online supermarket, customers can't directly pick up and check products themselves, so the company is working on ensuring quality and safety so that customers can shop with confidence. AEON NEXT has formulated a quality control system for foreign matter management and temperature control, and continues to strive every day to deliver not only deliciousness but also safety.

■ Outline of acquisition of "ISO 22000"

Audit standard: ISO 22000:2018Registration Number: JMAOA-F751

· Registration scope: Online sales and home delivery of groceries (ambient /chilled

/frozen products, including Fresh Group products)

• Establishments included in the scope of certification:

AEON NEXT Co., Ltd.

Aeon Next Delivery Co., Ltd. (Honda, Heiwajima, Nishinippori, Takatsu)

* Other sites of AEON NEXT Delivery also plan to gradually expand the scope of certification.

AEON NEXT continues to make continuous improvements and aim to further improve its food safety management. In addition, the company will introduce new technologies and processes to provide products that customers can choose with confidence.
